CSWC Operational Period Summary

0600 January 30 2017 to 1800 January 30 2017

A photo of Interstate 5 (I-5) in Weed, Siskiyou County. I-5 is a major north–south route of the Interstate Highway System. It begins at the Mexico-U.S. border at the San Ysidro crossing, goes north across the length of California and crosses into Oregon south of the Medford-Ashland metropolitan area. It is the more important and most used of the two major north-south routes on the Pacific Coast.

SPILL 17-0907, Dewatering Construction Material Release, Manteca, San Joaquin County

On 01/30/17 at 1632 hours the California State Warning Center (CSWC) received a report from the City of Manteca advising a release occurred from a construction site. A release from a low threat to water quality that discharged to land occurred in the City of Manteca.

- The dewatering operation flowed over a soil containment berm/ levees and gained access to the French Camp Outlet Canal. The canal leads to the San Joaquin Delta.
- It is estimated that 1,000,000 gallons of dewatering construction material released.
- The release has been stopped and the material is unrecoverable.
- Repairs to the berm are being performed by Knife River (contractor) with the assistance of NV-5 (construction manager). The project has a 401 Permit Number.
- The CSWC has made all notifications per SOP

SITUATION SUMMARY

2017 Statewide January Winter Storms

Cal OES Coastal Region

- Cal OES Coastal Region is monitoring activity throughout the region.

River Forecast - The following rivers are forecast to meet or exceed Monitor Stage:

- **Humboldt County:** Eel River at Fernbridge
- **Lake County:** Clear Lake at Lakeport

Please see link for River Forecast Guidance - <http://www.cnrfc.noaa.gov/>

Cal OES Inland Region

- Cal OES Inland Region is monitoring activity throughout the region.
 - Operational Areas (OAs) are conducting their damage assessments and completing Initial Damage Estimates.

Deployments

- **1** Emergency Services Coordinator (ESC) has deployed to San Joaquin County.

Proclamations

- A Proclamation signed on 01/30/17 was received from Kern County. The County is requesting CDAA.
- A Proclamation signed on 01/24/17 was received from Solano County on 01/30/17. The County is requesting CDAA and any other State or Federal Assistance.

Missions

- 2017-Inland-29867 – California Conservation Corps (CCC) crew to Yolo County to assist RD2035 with levee flood fight on 01/30/17.

SITUATION SUMMARY

2017 Statewide January Winter Storms

Cal OES Inland Region (Continued)

River Forecast - The following rivers are forecast to meet or exceed Flood Stage:

- Tehama County: Sacramento River at Tehama Bridge is forecast to crest at 213.9 feet the evening of 02/03/17. Potential Impacts: Between 213.0 and 214.0 Feet the county park becomes inaccessible. Lower trailer park slots (temporary slots) start to flood.

River Forecast - The following rivers are forecast to meet or exceed Monitor Stage:

- Tehama County: Sacramento River at Vina Woodson Bridge
- Plumas County: Middle Fork Feather River at Portola
- Glenn County: Sacramento River at Hamilton City; Sacramento River at Ord Ferry
- Colusa County: Sacramento River at Colusa Weir; Sacramento River at Colusa Bridge
- Sutter County: Sacramento River at Tisdale Weir; Sacramento River at Fremont Weir
- Yolo County: Yolo Bypass at Lisbon
- Sacramento County: Cosumnes River at Michigan Bar; Cosumnes River at McConnell
- San Joaquin County: San Joaquin River at Vernalis
- Stanislaus County: Tuolumne River at Modesto
- Merced County: San Joaquin River at Newman; Merced River at Stevinson

WEATHER OF CONCERN

Weather of Concern

- A storm system mid to late-week will bring rain and mountain snow to Northern California. Light precipitation will start Wednesday night and become more widespread across the area Thursday. Heavier precipitation amounts are expected Thursday through Friday before tapering off by early Saturday.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/wwa_bc_cal.php

WEATHER SYNOPSIS BY REGION

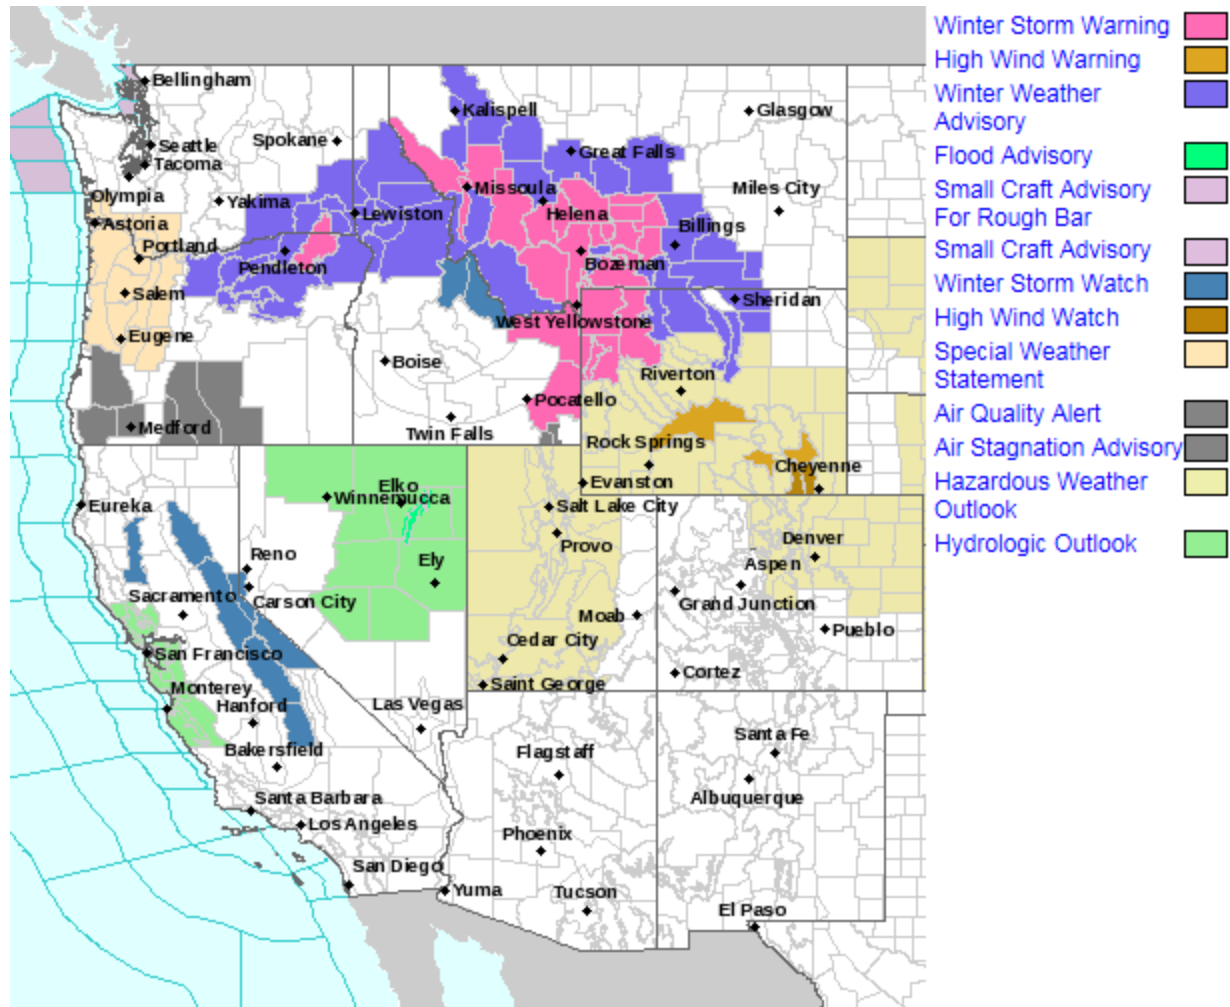

NORTHERN CALIFORNIA

High pressure will continue to keep the region dry through Tuesday. Today and Tuesday will be the warmest days over the next week with above normal highs. The warmest inland areas will be in the lower 60s. After almost a week of dry weather, another strong weather system will be moving into the region the middle of this week. Precipitation is expected to start in earnest Wednesday night and finally turn to showers and taper off late Friday. Snow levels with this system will generally be around 5000 feet, so mountain travel will become challenging again. Gusty southerly winds will start in Wednesday afternoon with gusts 30-50 mph pretty common at the higher elevations. Winds at lower elevations are not expected to be quite as strong, mostly up to around 15 mph sustained and gusts to 20 mph in the windiest locations Wednesday and Thursday. The strong, gusty winds will probably continue well into Friday. Higher pressure returns for the weekend with drier weather, although there may continue to be a chance of showers in the northern areas Saturday and Sunday.

SOUTHERN CALIFORNIA

A strong ridge of high pressure over California will continue to bring well above normal temperatures and very low humidity away from the San Joaquin Valley and coast through Tuesday. Temperatures will be around 10 degrees above normal today, with mid 50s to mid 60s across the mountains and 70s to low 80s in the valleys. Temperatures will cool a few degrees across the coast and coastal valleys Tuesday as the ridge begins to weaken, but there will be little change in temperature across the mountains and deserts. Minimum humidity will be mainly in the single digits and teens away from the Central Valley and coast through Tuesday. Local northeast to east winds of 10 to 20 mph with gusts to 35 mph will surface across the mountains and below the canyons and passes of Southern California this morning. A Pacific trough will approach the West Coast and move inland Wednesday through Friday bringing significant cooling to the region. This trough will also bring showers to Central California starting Wednesday evening and to Southern California starting Thursday evening. Most foothill and mountain locations across Central California will receive between 1 and 4 inches of rainfall, while the coast and valley locations of Central California receive between a quarter inch and an inch of rainfall. Most of Southern California will receive less than a quarter inch of rainfall. The snow level will mainly be between 7,000 and 8,000 feet. South to west winds of 15 to 25 mph with gusts to 40 mph will surface across the wind prone mountain and desert areas Wednesday afternoon through Friday evening. A weak ridge of high pressure will build into California from the Pacific Ocean bringing a slow warming and drying trend this weekend.

Cal OES LAW ENFORCEMENT MISSIONS

New Cal OES Law Missions

- **2017-LAW-29962, 01/29/17, 2050 hours:** AFRCC advised of a PLB activation at coordinates 36 30.8n by 121 55.2w which plots to Monterey County near Carmel Highlands. Law Duty Officer (LDO) contacted AFRCC and confirmed the information. AFRCC advised the coordinates had changed to 36 29.7n by 121 46.1w. LDO contacted Monterey County Sheriff to check the area. The registered owner (RO) of the PLB had sold it this weekend at a garage sale. RO did not have any information on the new owner. Per AFRCC, the PLB has moved to three new locations in the last hour. At 2225 hours, Monterey Sheriff advised they could not locate anyone in distress in the area of the last plot. Civil Air Patrol (CAP) launched a mission to locate and silence the PLB. **Mission Ongoing**

Ongoing Cal OES Law Missions

- **2017-LAW-29662, 01/17/17, 1000 hours:** Santa Barbara SO requesting Human Remains Detection (HRD) K9 assistance on behalf of Santa Barbara PD, to search an undisclosed residence for possible human remains from a 20 year old homicide. The California Specialized Search Team (CSST) out of Santa Clara County accepted the mission and will send two Historical HRD K9 Teams. The search will take place on Wednesday, 01/25/17. The Cal OES Law Branch is coordinating this mission. **Update:** Per Santa Barbara Sheriff, the mission is postponed until 01/31/17. **Mission Ongoing**

Closed Cal OES Law Missions

- **2017-LAW-29941, 01/28/17, 1530 hours:** LDO received a page for Personal Locator Beacon (PLB) activation per AFRCC, coordinates 37 49.0N, 122 09.9W, which plots to a location inside East Bay Region Park jurisdiction. LDO confirmed coordinates with AFRCC and contacted East Bay Park Police Department (EBPPD). They dispatched units and a helicopter to check the area. At 1630 hours, Per EBPPD, the helicopter was unable to see through dense vegetation. At 1740 hours, per AFRCC, they no longer had an active signal and closed the mission. EBPPD was also UTL. At 1755 hours, AFRCC advised LDO that the PLB reactivated. A CAP mission was initiated. CAP IC sent a ground unit to locate and silence the PLB. Mission was reopened. **Update: 2045 hours,** per CAP IC, the signal was dead again. **Update: 01/29/17, 0700 hours,** PLB reactivated. CAP ground team responded. **Update: 01/29/17, 2100 hours,** CAP located and silenced the PLB. It was located at a private residence in Oakland, CA. There is no emergency. **Mission Closed**

Cal OES MISSIONS

Cal OES Missions

- **2016-Coastal-26477:** Cal Recycle debris removal assistance requested for the Clayton Fire in Lake County; on scene through 02/01/17. **Mission Ongoing.**
- **2016-Coastal-26412:** DTSC clean up assistance requested for the Clayton Fire in Lake County; on scene through 02/01/17. **Mission Ongoing.**
- **2016-IREOC-21748:** Tasking Cal Trans to extend state highway right of way to facilitate hazard tree removal. This is a long term mission and is expected to remain in place through the summer months. **Mission Ongoing.**
- **2015-IREOC-19846:** One RAWS weather station to Amador OA – On scene 11/30/15, expected to be left in place until May 2017. **Mission Ongoing.**

Cal OES 2017 DROUGHT
